
EPSON OFFICE INKJET PRINTER RANGE

**BUILT FOR
BUSINESS**

EPSON[®]
EXCEED YOUR VISION

**THE EPSON
OFFICE RANGE.
FAST, VERSATILE
PRINTERS AND
ALL-IN-ONES
THAT FIT EASILY
INTO YOUR
OFFICE**

Achieve more with Epson high-speed business printers. Designed to make light work of routine tasks, they give you a higher level of performance and productivity. They deliver fast and cost-efficient printing and some models also have Wi-Fi technology built-in, for easy sharing across an office network.

The Epson Stylus Office range is designed to fit easily with your business needs, from personal high-speed business printers when deadlines are short, to a wireless printer resource for the whole office to share.

For additional functionality our All-in-One printers have copying, scanning and faxing built in.

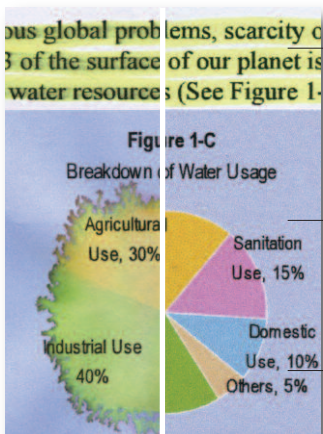

All Epson Stylus Office inkjets are ENERGY STAR® qualified with very low power consumption and with individual ink cartridges you only replace the colour you use, saving your business money.

EPSON DURABRITE™ ULTRA INK

Whatever you print, Epson DURABrite™ Ultra Ink is guaranteed to produce professional results every time. Designed to work seamlessly with our Epson Stylus Office printers, it uses an exclusive technology where the pigment particles are encapsulated in resin. This delivers laser-like text and brilliant colours and enables you to print double-sided without bleed-through.

And unlike competitors' inks, Epson DURABrite™ Ultra Ink is instant-drying and long-lasting, meaning your prints are resistant to fading, water, smudging and highlighter pens.

Documents are resistant to fading, smudging and even highlighter pens

Ink is locked to the paper to give you prints that are ready to use instantly

A unique resin coating protects the ink droplet from moisture

Non-Epson Ink

Epson DURABrite™ Ultra Ink

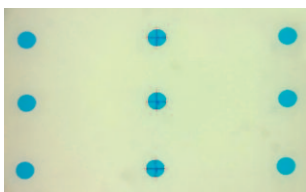

EPSON MICRO PIEZO™

The Epson Micro Piezo™ ink delivery system creates precise, perfectly formed ink droplets producing professional looking business documents and vibrant graphics without compromise. It uses variable sized ink droplets – small dots for areas of fine detail and larger dots for blocks of colour. This provides superior print quality and faster print speeds. Not only does it give great results on plain paper but also makes it possible to print on a wide range of different media types. This gives you and your office the flexibility to produce whatever material you want.

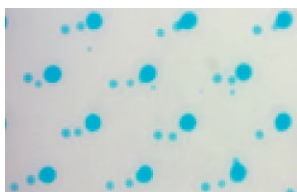

Epson's Micro Piezo™ print heads last the life of the printer, and as all our printers are ENERGY STAR® qualified, they're a more eco-friendly choice.

MAGNIFIED PRINTS FROM DIFFERENT TECHNOLOGIES

Epson Micro Piezo™ print head delivers precision droplets for perfect prints

EPSON STYLUS OFFICE BX600FW

Designed to meet the toughest business demands, this is the perfect high-speed 4-in-1 for networked printing, scanning, copying and faxing. Built-in Wi-Fi and Ethernet lets you print with or without cables. It's fast, versatile, compact and stylish so it will fit easily into any office.

The Epson Stylus Office BX600FW is high on productivity and low on running costs. The Epson Micro Piezo™ print head delivers high print speeds of up to 38 ppm in draft and laser-like text for crisp, clear business quality documents at 19 ppm in colour. It also uses less power than a laser printer, saving your business money.

Epson DURABrite™ Ultra Inks don't fade or smudge, even with highlighter pens. The high yield individual ink cartridges deliver a low cost per page that's comparable to a laser printer*⁴. And the new XL black cartridge prints up to 4 times more pages, meaning less frequent cartridge changes and more time to get the job done*⁵.

Experience the versatility of built-in Ethernet and Wi-Fi that integrates seamlessly into your network.

Now multiple users have access to shared scanning and printing, saving time and money.

THE HIGH PRODUCTIVITY ALL-IN-ONE WITH FAX, ETHERNET AND WI-FI

Integrated wireless and Ethernet networking:
For shared printing and scanning around the office

Easy-to-use control panel:
LCD viewer allows you to create copies and faxes without using a PC

Presto! PageManager:
Scan, share, edit and organise your documents

High-speed printing: Draft print speed up to 38 pages per minute with business quality printing up to 27 ppm black and 19 ppm colour*¹

ENERGY STAR® qualified: More power efficient than a laser printer – saves money and helps protect the environment*¹

Cost effective printing: High yield individual ink cartridges give a low cost per page, comparable to a laser printer*¹

Laser-like text: Epson DURABrite™ Ultra Ink delivers text as sharp as a laser printer

Brilliant colours: Print professional documents with full colour charts and graphs

Instant-drying: Prints are water, smudge and highlighter resistant

More choice: The resin-coated pigment technology allows you to print on various types of paper including envelopes

EPSON STYLUS OFFICE B40W

Enhance your office productivity with this high-speed business printer that has Ethernet and Wi-Fi networking built in. With business quality prints at up to 27 ppm in mono and 19 ppm in colour, to a maximum draft print speed of 38 ppm. The Epson Stylus Office B40W has a compact and stylish design, perfect on any desk.

The high yield individual ink cartridges deliver a low cost per page that's comparable to a laser printer*4. And the new XL black cartridge prints up to 4 times more pages, meaning less frequent cartridge changes and more time to get the job done*5. Whilst Epson DURABrite™ Ultra Ink gives durable results that resists even highlighter pens.

Integrated Wi-Fi and Ethernet ensure multiple users can have access to the printer without compromising security.
